WORK LOUNGE

SALON RANGE

Work lounges are there for staff to get together, to take a break and re-charge, they are also excellent spaces for employees to meet with clients. Use the Salon seating range together with coffee tables, plants and recharge stations to create an inviting atmosphere.

SALON RECEPTION COUNTER

A 3 panel high counter ensures a neat and tidy 1st impression and provides ideal space for Branding. The height is also ideal for a standard monitor to be completely hidden behind the counter, and for a guest to easily fill out forms on the top surface.

SALON STRAIGHT RECEPTION

Knock down, adjustable ferrules for levelling, includes cable management ports & wire basket

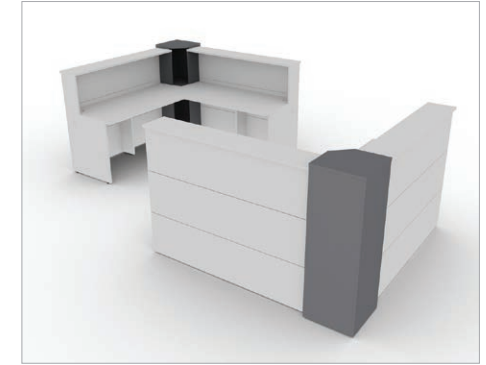

1200 x 732 x 1070	1500 x 732 x 1070
1800 x 732 x 1070	2100 x 732 x 1070
2400 x 732 x 1070	2700 x 732 x 1070

SALON RECEPTION STORAGE

DISPLAY

CUSTOMISE

A storage and display range that offers standard products that you can see here, but also allows you to design storage or displays to suit your needs and space. Follow the guidelines provided to create your own custom piece.

BACKDROP DISPLAY UNIT 01

- Comprising of Open Units with 22mm shelves
- Square Tube Steel 25mm
- Hardware & Fixing Key supplied
- Adjustable levelling feet
- 1500X450X1900

BACKDROP DISPLAY TV UNIT 01

- Comprising of Open Units with 22mm shelves
- Square Tube Steel 25mm
- Hardware & Fixing Key supplied
- Adjustable levelling feet
- 2700X450X1900

BACKDROP DISPLAY CLOTHES UNIT 01

- Comprising of Open Units with 22mm shelves
- Square Tube Steel 25mm
- Hardware & Fixing Key supplied
- Adjustable levelling feet
- 1250X450X1800

BACKDROP DISPLAY UNIT 02

- Comprising of Open Units with 22mm shelves
- Square Tube Steel 25mm
- Hardware & Fixing Key supplied
- Adjustable levelling feet
- 1300X450X1800

2-WAY RETAIL DISPLAY

2-way open box 1200 x 600 x 350H
End shelving 600 x 300 x 1050H

This unit is a custom product that can be made to spec.

1-WAY RETAIL DISPLAY

1-way open box 1200 x 300 x 350H

This unit is a custom product that can be made to spec.

BACKDROP CUSTOM DISPLAY DESIGN GUIDELINES

- For stability there always needs to be at least one "complete" storage unit (with top, back and sides) included in your design.
- Wood components: All horizontals will be 22mm melamine, all verticals can be 16mm melamine.
- Wooden storage units: Doors and drawers hide the verticals of the carcass, whilst the horizontal top and bottom of the carcass remain visible (as with all the standard storage units).
- The direction of the grain is always vertical (as with all the standard storage units).
- The largest recommended distance between steel frames/tubes is 1200, this is to avoid shelves sagging or overloading of storage units.
- Steel is always 25mm square tube, and 50mm inset from the front and back of the shelves/storage units.
- The steel frame will have adjustable ferrules for levelling.
- The first shelf/storage unit starts 120mm from the bottom/floor.
- Try to only have steel tube vertically, avoid return/horizontal steel tube (connecting the front and back vertical steel frames). This is to try and limit drilling to only 2 sides of the tube/frame. It is however possible if the design requires it.
- There will always be a break/shadow-line between shelves/storage units where they are separated by the steel frame.
- A top can be added, without any breaks for steel frame, in this case the fitting is "installed" in the steel frame and screwed up, into the top.
- Colours of generally components are limited to Entrawood/Entrakor standard colours.

MALUTI

HEIGHT- ADJUSTABLE DESK RANGE

Move, sit, stand, work. The Maluti desks adapt to each user's needs as they adjust from a sitting or standing position throughout the day, supporting good blood circulation and reducing neck and back strain.

Designed and manufactured by Entrawood.

MALUTI DREAM DESK

Has an ergonomic design and comes complete with a shaped birch ply top (anti-fingerprint, anti-reflection, antibacterial), Maluti single frame and programmable control. The user can set and store up to 4 preferred desktop positions.

Available in these standard sizes:
 1600 x 900 x HA
 1800 x 940 x HA

Height variation Floor to desktop:
 694mm- 1210mm height

Lifting Speed: 38 mm/s

Maximum lifting weight: 110kg

Noise Level: Low Motor Noise

Uniquely programmed: Built-in Anti-pinch system

German and Austrian drive & electronics and Premium Quality components

Manufacturing Guarantee: 3 year warranty

Product of South Africa

The cable management port also fits a Punto Plus power set (sold separately).

THE MALUTI DESK RANGE

The Maluti Height adjustable desks have been designed and developed in South Africa for the African market. We use quality materials and electronic and drive components from Germany and Austria. Our European partners ensure that we stay up to date with international trends. The Maluti range brings state-of-the-art performance and flexibility to the modern workplace.

Desks are assembled in an assembly facility designed specifically for these products. Each leg undergoes friction testing, and is quality approved before being assembled. Final product is also checked & leveled before being packed. The desks have excellent stability and we have added a customizable pinch protection safety feature. The desks come with a 3-year warranty, and we stock all parts and electronics locally, in case something should go wrong.

Please enquire if you need a unique height-adjustable solution.

MALUTI SINGLE DESK FRAME

The frame accommodates tops:
1200mm – 2000mm widths
600mm – 900mm Depths

Height variation Floor to desktop: 694mm- 1210mm height

1700 x 925 (for 1800 desk)

1900 x 925 (for 2000 desk)

Includes brackets

UPHOLSTERED MODESTY

Attached to cable tray

- 1100 x 380 (for 1200 desk)
- 1400 x 380 (for 1500 desk)
- 1500 x 380 (for 1600 desk)
- 1700 x 380 (for 1800 desk)
- 1900 x 380 (for 2000 desk)

STANDARD UP/DOWN CONTROL

The height of the desktop can be adjusted by holding in the up or down arrow until the desktop has reached the desired position.

PUNTO+ DESKTOP POWER

The power set fits into the standard 80mm cable management port on the desktop. It allows the user to power a laptop, phone and light, and accommodates a pull-through network cable. 2-Port USB connections in our power sets come fitted with a type A & Type C fitting. 5m Cable is included.

LOGICLINK CONTROL UNIT

You can upgrade to a LOGIClink control unit, which can be manually controlled but also allows connection to a free Motion@Work app on your smartphone that can be used to control your desk movement within a Bluetooth range. The app can also alert you when it is time to stand again, helping you to optimise the use of the desk. You can also store your preferred height settings and review your desk usage on the app.

Furthermore, you get a year free subscription to the BakkerElkhuizen Work&Move software which allows HR and employers to track the usage of the desk.

This is a good option for companies who want to test the popularity and usability of their new Maluti height adjustable desks.

THE COCOON SCREEN

Attached with brackets to the desktop

- 1100 x 735 (for 1200 desk)
- 1400 x 735 (for 1500 desk)
- 1500 x 735 (for 1600 desk)
- 1700 x 735 (for 1800 desk)
- 1900 x 735 (for 2000 desk)

PROGRAMMABLE CONTROL

The user can set and store up to 4 preferred desktop positions.

Hold the number of the preset position down. The desktop will stop moving once the preset position has been reached.

OBLIQUE POWER SET

Fits into the cable tray under the desktop. It can be used to power the desk motor(s), desktop power set (optional extra), and additional device such as a monitor or light.

Add a:

- 5m cable with 3 point plug
- Interconnecting cable to connect multiple desks in series.

THE EXEC
